Asheville, NC

Biography

Timothy has over 35 years of construction and restoration experience. He is an expert in water damage mitigation, fire damage repair, microbial remediation, and environmental hazards. Tim specializes in cost analysis and project timeline development. Timothy's experience includes large multi-family structures, complicated multi-locational assets, large commercial retail space, hospitality structures, educational facilities, Industrial, food processing, High and Mid-Rise structures, and high-end residential properties. He also has extensive experience evaluating plans and schedules for restoration projects, as well as providing oversight and analysis of mitigation and remediation activities and has demonstrated his abilities to provide advisory guidance on costs associated with them.
