Biography

Ron Evangelista joined YOUNG & Associates as a Senior Consultant in 2019. Ron holds a Bachelor of Science degree in Construction Management. Ron's experience spans over 30 years in the commercial construction industry which includes positions as a Superintendent, Senior Project Manager and Director of Construction for mid-sized construction and development companies. Ron has also owned and operated a successful commercial construction and owner representation firm for over 10 years. As a Regional Consultant with YOUNG & Associates, Ron's experience allows him to properly evaluate damage losses, provide detailed estimates, scopes of work and reconstruction assessments on various projects within the industry.
