Biography

Jeena brings over a decade of IT experience across multiple industry segments, leading digital transformation initiatives connecting people, data, & ideas. She is inspired and motivated by creative ways of bridging processes and technology to spark human connection and the future of work. She believes that diversity of thought and people is key to organizational success. Thus at YA, she will identify the opportunity to connect YA's big picture strategy to tactical execution and, in the journey, help business partners identify opportunities, reimagine the future, simplify complex programs—leverage technology innovation capabilities to bring ideas to life.
