Biography

Kevin Kapisak joined YOUNG & Associates in 2015. Since 2000, Kevin has focused his career entirely on the field of construction, real estate, and property claims. He has spent time out in the field, classroom, and in various upper management roles on major construction projects ranging from \$1M to \$365M. While most of Kevin's experience has been managing complex construction projects and claims, he has also personally invested in dilapidated early 1900s single and multi-family properties that and has enjoyed restoring them to their original glory. As Managing Partner, his role capitalizes on his vast experience by leading a team of consultants specializing in scheduling, estimating, and coordinating outside specialty consultants to evaluate large and complex losses. Kevin's diverse knowledge from the construction management, real estate, and insurance claims perspective gives him a unique and progressive vision in the scoping, reporting, estimating, and investigating property damage losses for YOUNG & Associates clients.
