Biography

Howard Reynolds joined YOUNG & Associates in 2022 as a Regional Building Consultant assigned to the Southwest region. Throughout his 30yr + career in the construction and insurance industries, Howard has been involved with a wide variety of construction projects and first and third-party property loss assessment including high end high net worth residential properties and commercial buildings. He is well versed from routine to complex large loss damage assessment-estimating with extensive experience in insurance loss, mitigation, environmental services, dispute resolution, coverage-difficult loss adjustment, appraisal-mediation services involving plaintiff attorney, public adjuster, and difficult contractor involvement. Additionally, Howard's experience includes catastrophic property loss assessment throughout the United States with multiple types of peril including earthquake, earth movement, surface-subsurface water, flood, construction defect, and weather-related loss. His experience level, professional skill sets, and customer service complements the dynamic team environment at YOUNG & Associates.
