Biography

MARK SIEGWALD joined YOUNG & Associates as a Senior Consultant in 2017. With 24 years of experience in the insurance and restoration industry, Mark has been responsible for selling, managing, and directing projects and personnel. He is proficient in developing repair scopes, cost estimates, and contract language. His specific expertise is in water damage, drying of structures, textiles, documents/media, and mold. Mark has provided damage assessment and restoration services for a variety of insurance, government (state and local), education, and municipal facilities. Consulting services include the development of preliminary and detailed repair/mitigation scopes and negotiation of scopes and associated costs to resolve claims in a timely manner.
