Biography

Christian Gorry is a licensed Professional Engineer specializing in the evaluation of buildings that have been damaged by water intrusion. Christian is a Registered Roof Consultant and a Registered Roof Observer (IIBEC) and has consulted on several hundred roofing projects including repair design, construction administration and roof evaluations for property managers, insurance companies and attorneys. He has performed whole building condition assessments including code analysis for 10 plus years. Christian's previous work as a structural engineer and as a construction manager give him broad experience in building construction.
