## Biography

Manny Morrell joins YA Group as a Mechanical Engineer with over 25 years of front-line expertise in various mechanical and electrical systems and equipment. His experience is complemented by an emphasis on applications in renewable energy operations, maintenance, and construction.

Manny leverages his decades of experience to provide essential technical consulting services in insurance claims for adjusters, carriers, and their legal counsel through on-site investigations, analysis, and reporting. His services at YA include on-site equipment property damage assessments, restoration cost analysis (RCV/ACV), desktop reviews (invoice/restoration means & method), and dispute resolution.
